

I care. I help. I give. iFundokc.org

Do you want to make a difference in our community? Consider a charitable gift to an iFund.

What is an iFund?

An iFund is a compilation of gifts made by donors for the benefit of a charitable organization offering direct services to children, the elderly or people in need of basic and preventive health care. An iFund provides an easy and convenient way to make a gift of \$25 or more that when combined with gifts from others can have a real impact on current needs in our community. We guarantee that 100% of all gifts made to iFunds will be used to award grants to worthy 501(C)(3) charitable organizations offering direct services. We will also add additional resources as necessary to ensure the grants have a measurable impact. If you care and want to help, please make a gift to an iFund today.

Opportunities for Children iFund supports grants that provide children in need access to services and opportunities.

Access to Health Care iFund supports grants to provide basic and preventive health care including mental and dental care to individuals in need.

Services for Elderly iFund supports grants to help our older citizens stay safe and well in their homes.
